CONWAY HOUSE

Dental Practice

Mr Adrian RJ Curtis FDS RCS (Eng) BDS (QUB) • GDC No: 66012

Adrian graduated from Queen's Belfast in 1990 and achieved his Fellowship in 1995 from the Royal College of Surgeons in London. His post-graduate training was in Oral Surgery in hospitals throughout the UK. He currently lives in Buckinghamshire and works as an Associate Specialist in Oral Surgery at Stoke Mandeville Hospital in Aylesbury where he is also Clinical Director for Oral Surgery & Orthodontics. He undertakes private specialist Oral Surgery at Conway House Dental Practice.

His main interests are in dento-alveolar surgery particularly in relation to orthodontic treatment, peri-radicular surgery and the management of children with cleft lip and palate. He is actively involved in teaching to all members of the dental team and colleagues in other medical and nursing specialities.

Dr Ban Ratti MbchB, Dch, Drcog, Mrcgp • GMC No: 4023221

Dr Ban Ratti is an aesthetic Physician and well established General Practitioner, with an interest in Accident and Emergency medicine. She was a previous GP lead at Kingston Hospital.

She runs clinics in Surbiton, Esher, Guildford, Windsor, High Wycombe and around South West London and various other London sites, and is experienced in facial aesthetic procedures including Botulinum toxin (Botox®), Dermal Filler procedures and Skin peels.

She is fully qualified and experienced in the administration of Botox® for the reduction of facial wrinkles of the upper face. She has done Masterclass Training in Juvéderm® for the reduction of facial lines and increasing the fullness of the lips and is qualified in all forms of Dermal fillers.

Dr Ratti has great interpersonal skills and will make you feel at ease while discussing and assessing your requirements. She states, "My belief is to give a personalised service, tailored to the patient, giving a youthful and fresh appearance."

Dr Ratti qualified in 1993 from Liverpool University and completed her GP training in 1997 having obtained her MRCGP, DCH and DRCOG qualifications. She has worked in General Practice and in Accident and Emergency while maintaining a special interest in facial aesthetics.

Price Guide

Botox treatment	from £180
Filler treatment	from £180
Skin peel treatment	from £380

Mr Arijit Ray-Chaudhuri (AJ)

BDS MFDS RCSEd MJDF RCSEng LLM AHEA FDS RCSEng

(Consultant in Restorative Dentistry and Implantology, Specialist in Prosthodontics, Periodontics, Endodontics and Restorative Dentistry) • GDC Number 82588

AJ graduated from Guy's, King's and St Thomas' University in 2003. He then worked as a general dentist for 2 years before becoming a hospital dentist to further his dental knowledge and experience. He worked as a Senior House Officer in Oral and Maxillo-facial surgery, Prosthetics, Oral Medicine and Periodontology, Conscious Sedation and Restorative Dentistry. During this training he completed his diplomas of Membership at the Royal College of Surgeons of Edinburgh and the Royal College of Surgeons of England. He also read law at Cardiff University and completed his Masters degree.

AJ then embarked upon 5 years of formal Consultant training at King's College and St George's Hospitals in London. He obtained experience in providing complex root canal treatments, gum surgery, crowns, bridges, dentures and implants.

During his training he has taught dentists and allied health professionals locally, regionally and nationally. AJ has also published extensively in scientific journals on a variety of topics related to his speciality and has conducted research which has been published in an international journal. In addition to this, he was awarded an Honorary Lectureship at the Royal College of Surgeons of England and examines for the MJDF examination. He has also completed a post-graduate certificate in teaching and is an Associate of the Higher Education Authority.

AJ has recently been awarded a Fellowship of the Royal College of Surgeons of England and is a specialist in Restorative Dentistry, Endodontics, Periodontics and Prosthodontics. He works part-time as a Consultant in Restorative Dentistry at Brighton Hospital and also in our private practice at Conway House.

In his spare time he enjoys travelling, photography and football.

Price Guide

Consultation for Periodontal treatment	£150

Premolar teeth	from £700
Molar teeth	from £800

Where a case has additional complexities e.g. separated file, perforation, post removal, coronal deconstruction or requires a core restoration an additional fee will apply.

Dr Prabhjot Sandhu (Prab)

BDS (Hons) Lon, MFDS RCS Edin, Dip Imp Dent RCS Eng • GDC Number 75053

Dr Prabhjot Sandhu qualified with Honours in 1998 from the United Medical and Dental schools of Guy's and St. Thomas' Hospitals and is a conscientious professional with over 11 years of private practice experience and 14 years post qualification experience in General dentistry. She strives to provide state-of-the-art dentistry for her patients and has a special interest in cosmetic dentistry, smile design and gum recontouring. She is also an experienced oral surgeon and offers dental implants as a permanent solution for your missing teeth.

Since qualifying, she has obtained a Fellowship in Dental Surgery from the Royal College of Surgeons and Physicians in Edinburgh in 2004 following her post-graduate hospital positions as a Senior House Officer in Oral and Maxillofacial surgery. This allowed her to further enhance her knowledge in complex facial surgery/impacted wisdom tooth removal not normally encountered in general dental practice enabling her to provide a higher level of care in this field.

She has attended numerous national and international post-graduate courses and conferences in order to keep abreast with current advances in aesthetic, reconstructive and implant dentistry and has also undertaken extensive training in the U.K and Germany. To this end she has also completed a 2 year implant training programme culminating in the prestigious Diploma in Implant dentistry from the Royal College of Surgeons in London which is considered by the GDC to be the gold standard for implant training in the U.K.

In order to provide gentle dental care in a calm environment, she is also fully trained to provide intra-venous sedation for nervous patients should they require it to help overcome their fears.

Price Guide

Implant consultation	£90
Implant	£1500
Implant with crown	£2500
Sedation consultation	£40
Sedation	from £250 per session

What happens next

When we receive a referral from you, we will contact your patient to arrange their initial consultation appointment.

As soon as the patient has made their appointment we will let you know the date and time. You are welcome to accompany your patient to this appointment so that you may remain involved in their referred treatment.

A treatment plan will be provided for your patient usually within ten working days of their consultation. Patients with complex treatment are invited to re-visit the practice to receive their treatment plan so that we can provide a helpful explanation of all the treatment options.

All patients are offered the opportunity of returning for a treatment plan discussion with the clinician. At this stage we would also seek consent from patients who wish to proceed with treatment and make necessary financial arrangements to assist them in budgeting for the cost of their treatment.

We will inform you, if requested, when the appointments for treatment have been made and to provide you with the opportunity to assist with or observe any of the procedures being carried out.

Once the treatment has been completed, your patient will be returned back into your care. We will then write to you letting you know the outcome of their treatment and what if any, ongoing maintenance care they will need. We will return any radiographs and study models which were provided with the initial referral letter.

If the event of us being unable to contact your patient following your referral, we will advise you in writing.
